CSR-4000 CLEANER

Description:

CSR-4000 Cleaner is a biobased, readily biodegradable* powerful cleaner that can be used on multiple surfaces to clean a variety of oils and greasy soils. It is particularly effective in removing oily and greasy soils from all surfaces. Safe for use on painted surfaces.

Applications include:

- Concrete and floor cleaning
- Parts washer fluids
- Bilge and cargo holds
- Painted hangar floors
- Oil rig and deck wash
- Truck and equipment
- Tool and maintenance cleanup
- Grounds care equipment

CSR-4000 has a neutral pH and is a safer alternative for the people using it and the environment.

Instructions:

CSR-4000 Cleaner can be used full strength or diluted. The cleaner should be applied by spray or with a power washer. Product should be allowed to stay on the surface for 3-5 minutes followed by brushing or power washing for optimum effects of cleaning.

Suggested Dilutions
Difficult Cleaning: 100% - 50%
Average Cleaning: 50% - 20%
Routine Maintenance: 10% - 2%

CSR-4000 Cleaner (page 2)

Basic Properties	
Appearance:	Clear light amber color
Odor:	Mild ester odor
Water Solubility:	100%
Boiling Point:	136.6°C (212°F)
Flash Point:	N/A
Specific Gravity:	1.02
Relative Density:	Greater than water
pH Range:	7.5 - 8.0
Shelf Life	24 months

CSR-4000 is:	CSR-4000 does not contain:
Non-toxic	Petroleum distillates
Non-reactive	Glycol ethers
Non-carcinogenic	Terpenes
Readily biodegradable	Synthetics
Derived from renewable resources	Builders & reagents
Safe to use, store and dispose of	Caustics
