Fire-fighting measures                                                    |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| Suitable extinguishing media                                                 | Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| Unsuitable extinguishing media                                               | Do not use water jet as an extinguisher, as this will spread the fire.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| Specific hazards arising from the chemical                                   | During fire, gases hazardous to health may be formed.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| Special protective equipment and precautions for firefighters                | Self-contained breathing apparatus and full protective clothing must be worn in case of fire.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
|                                                                              | Management of the second first second first second s |

Fire fighting<br/>equipment/instructionsMove containers from fire area if you can do so without risk.Specific methodsUse standard firefighting procedures and consider the hazards of other involved materials.General fire hazardsNo unusual fire or explosion hazards noted.

# 6. Accidental release measures

| 6. Accidental release measures |                                                                           |                                                                                                                                                                                                                                                                                            |
|--------------------------------|---------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|                                | Personal precautions,<br>protective equipment and<br>emergency procedures | Keep unnecessary personnel away. For personal protection, see section 8 of the SDS.                                                                                                                                                                                                        |
|                                | Methods and materials for<br>containment and cleaning up                  | The product is immiscible with water and will spread on the water surface.                                                                                                                                                                                                                 |
|                                |                                                                           | Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water. |
|                                |                                                                           | Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.                                                                                                                                                             |
|                                |                                                                           | Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.                                                                                                                                                                                      |
|                                | Environmental precautions                                                 | Avoid discharge into drains, water courses or onto the ground.                                                                                                                                                                                                                             |
|                                |                                                                           |                                                                                                                                                                                                                                                                                            |

# 7. Handling and storage

| Precautions for safe handling                                   | Avoid prolonged exposure. Observe good industrial hygiene practices.                                            |
|-----------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------|
| Conditions for safe storage,<br>including any incompatibilities | Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS). |

# 8. Exposure controls/personal protection

| iological limit values                                                           | No biological exposure limits noted                                                                                                                                                                                                                                                                                                                                                           | for the ingredient(s). |                     |  |
| ppropriate engineering<br>ontrols                                                | Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. |                        |                     |  |

#### Individual protection measures, such as personal protective equipment

| Eye/face protection               | Wear safety glasses with side shields (or goggles).                                                                                                                                                                         |  |
|-----------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| Skin protection                   |                                                                                                                                                                                                                             |  |
| Hand protection                   | Wear appropriate chemical resistant gloves. Suitable gloves can be recommended by the glove supplier.                                                                                                                       |  |
| Other                             | Wear suitable protective clothing.                                                                                                                                                                                          |  |
| Respiratory protection            | Dust mask.                                                                                                                                                                                                                  |  |
| Thermal hazards                   | Wear appropriate thermal protective clothing, when necessary.                                                                                                                                                               |  |
| General hygiene<br>considerations | Always observe good personal hygiene measures, such as washing after handling the material<br>and before eating, drinking, and/or smoking. Routinely wash work clothing and protective<br>equipment to remove contaminants. |  |

# 10. Stability and reactivity

| Reactivity                            | The product is stable and non-reactive under normal conditions of use, storage and transport. |
|---------------------------------------|-----------------------------------------------------------------------------------------------|
| Chemical stability                    | Material is stable under normal conditions.                                                   |
| Possibility of hazardous<br>reactions | No dangerous reaction known under conditions of normal use.                                   |
| Conditions to avoid                   | Contact with incompatible materials.                                                          |
| Incompatible materials                | Strong oxidizing agents.                                                                      |
| Hazardous decomposition products      | No hazardous decomposition products are known.                                                |

| Bioaccumulative potential                  |                                                                                                                                                                                         |  |
| Mobility in soil                           | No data available.                                                                                                                                                                      |  |
| Other adverse effects                      | No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component. |  |

### 13. Disposal considerations

| Disposal instructions                    | Collect and reclaim or dispose in sealed containers at licensed waste disposal site.                                                                                                                             |  |
|------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| Local disposal regulations               | Dispose in accordance with all applicable regulations.                                                                                                                                                           |  |
| Hazardous waste code                     | The waste code should be assigned in discussion between the user, the producer and the waste disposal company.                                                                                                   |  |
| Waste from residues / unused<br>products | Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions). |  |
| Contaminated packaging                   | Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.       |  |

### 14. Transport information

#### DOT

Not regulated as dangerous goods.

#### ΙΑΤΑ

Not regulated as dangerous goods.

#### IMDG

Not regulated as dangerous goods.

# Transport in bulk according to Not established. Annex II of MARPOL 73/78 and

the IBC Code

### 15. Regulatory information

US federal regulations

This product is not known to be a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard 2012, 29 CFR 1910.1200.

### TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated.

CERCLA Hazardous Substance List (40 CFR 302.4)

Not listed.

SARA 304 Emergency release notification

Not regulated.

OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not regulated.

**Hazard categories** 

# Superfund Amendments and Reauthorization Act of 1986 (SARA)

Immediate Hazard - No Delayed Hazard - No Fire Hazard - No Pressure Hazard - No Reactivity Hazard - No

# SARA 302 Extremely hazardous substance

Not listed.

# SARA 311/312 Hazardous No chemical

#### SARA 313 (TRI reporting) Not regulated.

#### Other federal regulations

#### Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HAPs) List

Not regulated.

```
Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)
```

Not regulated.

```
Safe Drinking Water Act Not regulated.
```

(SDWA)

#### International Inventories
